Membership Card

COMPUTER PROFESSIONALS' BOOK CLUB

Please enroll me as a member and send me the two books indicated below. I am to receive the bonus book at the special introductory $1.00 price and my first selection at the discounted member price, both to be shipped on approval. I may return them in 10 days and request to have my membership cancelled without obligation. If I keep the books, I agree to take three other club books of my own choosing during the next two years, at the low club prices, guaranteed to be a minimum of 15% (often more) under publishers' prices. (Postage and 25¢ handling charge will be added.)

As a member, I am to receive free the **Club Bulletin** describing the next monthly selection and alternate choices. Whenever I want a coming selection, no action is necessary. It will be shipped automatically. However, if I want an alternate selection, or no book at all, I simply notify the Club by returning the convenient order card, always enclosed with the **Bulletin.**

McGraw Hill

As you can see in the enclosed brochure, books of great value and distinction are included -- John C. Cluley's COMPUTER INTERFACING AND ON-LINE OPERATION...Harry Katzan's COMPUTER DATA SECURITY...and Madnick and Donovan's OPERATING SYSTEMS.

When you consider that some books described were published for as much as $20.00 and more, and that any one of them can be yours for just $1.00, you will understand just how much the Club will mean in your professional life.

Terms are simple. By accepting as few as four titles over a two-year period, you will receive all membership benefits. Certainly, out of the many books published in your specialty, there will be at least four you will need in any case, either now or for future reference.

Send no money now. Use the prepaid first-class reply card to order your bonus book. Simply indicate which title you want for $1.00, plus the title of your first selection, and return the card. Residents outside the United States must send remittance with their enrollment order.

Upon receipt of the card here, your membership privileges begin. They are spelled out in greater detail for you in the brochure, which also describes the volumes now available to you and indicates the special Club p

Five Good Reasons for Joining the New
COMPUTER PROFESSIONALS' BOOK CLUB

How many books directly relating to your profession are published each year?

How many do you miss?

If you want to be sure you are always fully informed of important new titles in your field, this is the best possible time to act. With publishers' costs and prices soaring, you really can't afford not to belong to a Club that offers you...

1. SAVINGS. Because of a special Club discount you save on every book you buy -- always 15 percent, and often 25 percent or more.

2. CONVENIENCE. All books offered are chosen specifically for computer professionals -- programmers, systems analysts, data processing center managers, users, and others in related fields.

3. AVAILABILITY. You are given a wide selection of important titles not ordinarily stocked in the average bookstore -- works in such areas as ...ing, computer languages, overall systems ...gement information, government rules ..., and social implications of the ...

4. ...ou keep abreast of fresh ideas and ...opments to help solve problems in day-to-day work.

5. NO RISKS. You always have a free ten-day examination period, and you may return any book that doesn't meet your needs.

Actually, there are many more good reasons to join. But to interest you in membership right now, I would like to send you any book described in the enclosed circular...

-- for only $1.00 --

as an introduction to this dynamic new Club, which enables you to acquire the best career-oriented books on a regular basis -- and at a savings well below publishers' prices.

introducing the new
COMPUTER PROFESSIONALS' BOOK CLUB

Featuring books by all publishers, the Club is designed specifically to meet your day-to-day needs—by providing you with the most valuable and practical titles in your field on a regular basis, and below list prices.

How the Club Operates. Basic to the Club's service is the **Club Bulletin,** which brings you news of books in your field. Sent to members without cost, it announces and describes the Club's featured book of the month providing complete contents of the book—detailing the author's background and qualifications—frequently quoting the experts' evaluations appearing in professional journals. In short, it gives the information you want for your own personal preliminary appraisal.

Also available are many alternate selections, at special members' prices. They range from basic books on all aspects of data processing to specialized works on particular developments in the field.

When you want to examine the featured selection, no action is necessary. It will be shipped to you automatically. If, however, you want one of the alternate selections, or if you want no book at all, you simply notify the Club by returning the convenient order card, always enclosed with the **Bulletin.**

Saves You Time and Money. You agree only to the purchase of four books over a two-year period. Considering the many books published annually in your field, there will undoubtedly be at least four that you would want to own anyway. By joining the Club you save both money and the trouble of searching. If after examination you find a book unsuited to your needs, you may return it without obligation.

Because membership is limited to especially selected interested professionals, your needs get the kind of prompt personalized attention that you will appreciate. In every way possible the Club is dedicated to meeting your specific professional requirements in the most convenient and efficient manner possible.
